ABOUT ME

Detail-oriented Computer Science Graduate with hands-on experience in Software and Web Development. Skilled in the full application lifecycle—designing, coding, testing, and maintenance—using modern programming tools to create functional, user-friendly solutions across multiple platforms. Committed to leveraging technical skills and problem-solving abilities to a dynamic development team focused on creating impactful software systems.

WORK EXPERIENCE / OJT

Jul 2023 – Nov 2025

Woflow (remote)

Data Entry Specialist

- Evaluated and corrected large datasets containing text and image information for quality and coherence.
- Review human-entered data for semantic accuracy and contextual consistency.
- Applied detailed project guidelines to assess data quality.
- Collaborate with remote teams to maintain translation and data accuracy across multilingual content.
- Ensure accuracy while managing repetitive, detailed data evaluation tasks.

Aug 2025 – Sep 2025

Marikina Valley Medical Center

Information Technology Intern (OJT)

- Provide technical support by troubleshooting computer hardware, software, and network issues.
- Installed, configured, and maintained applications such as BIZZBOX(HIS), AQMS, and Sophos Antivirus.
- Conducted LAN cable mapping, tracing, and termination to ensure stable network connectivity.
- Set up and maintained computers, printers, routers, network switch and workstations.
- Documented recurring IT problems and solutions to improve response time.
- Collaborated with senior IT staff to minimize downtime and maintain hospital operations.

EDUCATION

2022 – 2025

ICCT Colleges Foundation Inc.

Bachelor of Science in Computer Science (BSCS)

2020 – 2022

San Mateo Senior High School

Technical Vocational and Livelihood / Computer Programming (ICT Strand)

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, PHP, JavaScript (JS), Visual Basic (VB)
- **Frameworks:** Laravel (PHP)
- **Web & Mobile UI:** HTML, CSS, XML, Tailwind CSS
- **Database Query:** SQLiteSet
- **Machine Learning:** Experience with TensorFlow modeling.
- **IT Support & Helpdesk:** Hardware/Software Troubleshooting, printer setup, system configuration, computer setup, and providing remote technical support to resolve software issues.
- **Networking & Security:** Network Switch Setup, IP Configuration (DHCP and Static), resolving IP address conflicts, LAN cable termination, and installing/configuring antivirus systems (Sophos).
- **IDEs/Editors:** Android Studio, Visual Studio Code (VS Code), JCreator, Figma, XAMPP
- **Version Control:** GitHub (Debugging, testing, and version control)
- **Database Tools:** MySQL, SQLite(local), phpmyadmin
- **Productivity Suites:** Microsoft Word, Excel, PowerPoint, Canva, Figma
